CL100 LaviLock

CaviLock™

Handles & Locks for Sliding Doors

The CL100 LaviLock is a lockset designed for use in hospitals, aged care facilities, public bathrooms, disabled bathrooms or educational facilities. The brass and stainless steel components ensure ease of use and durability for years to come. The LaviLock has a reputation for resistance to harsh environments and resisting harsh treatment in public areas.*
Easily visible **"Vacant / In Use"** lettering and fail safe exit free functionality also ensure that the LaviLock keeps its reputation.

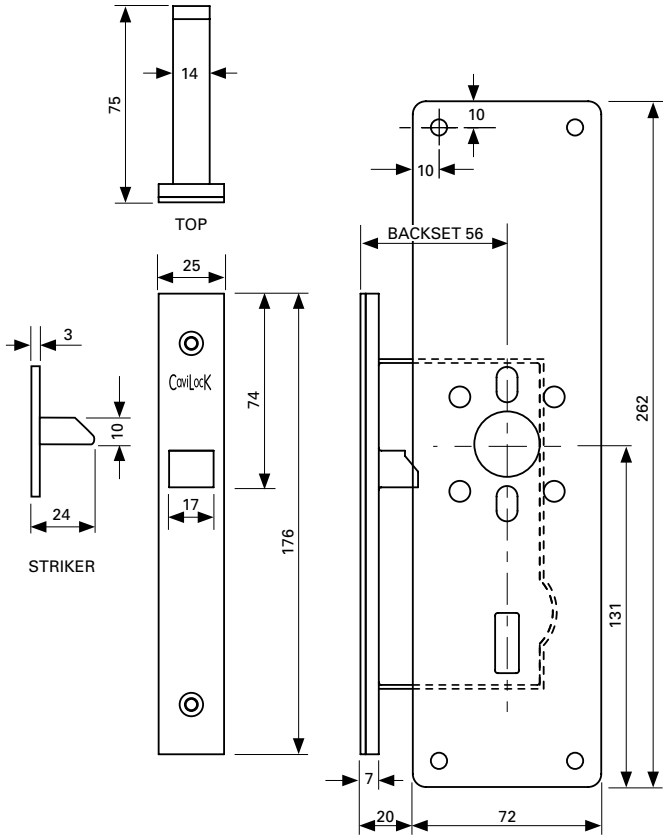
The LaviLock is supplied as a complete set including:

- Lever Handles (standard or offset for disabled access available)
- Stainless Steel Indication Plates
- Slide Locking Buttons including Emergency Release
- CL100 Mortice Lock Case

IMPORTANT: Contact CS Cavity Sliders customer service staff for further information regarding product compliance with Australian standards relating to disabled access.

*If LaviLock is to be installed into areas where there is exposure to corrosive environments, e.g. high chlorine or salt concentration, contact CS for an appropriate solution.

Dimensions



Handle Options & Configurations

Outside

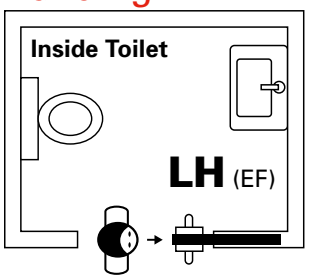
'Vacant/In Use' indicator on outside door face. Disabled offset lever handle shown†.

Inside

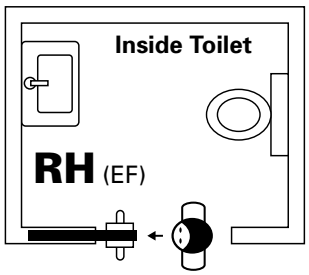
Easy to use 'Unlock/Lock' lever on inside door face. Standard lever handle shown†.

† **Confirm handle type at time of order**

Handing



When standing looking into the cavity pocket, if the locking snib is on your ***left hand*** side then the **LaviLock** is a Left Hand lock.



When standing looking into the cavity pocket, if the locking snib is on your ***right hand*** side then the **LaviLock** is a Right Hand lock.

EF = Exit Free - Even when in locked position the handle on the **inside** remains unlocked.
